ABOUT THE BATCH

In this batch we had six main house captains and thirty-one assistant captains. 2020 batch had tremendous performances and activities. As the batch was the second batch of the house system, and the system was learning from its previous mistakes, the system had to take some tough decisions to maintain rules and regulations as mentioned in the house niyam of BMPS. Many students were expelled and added. Students learned the lesson and realized their mistakes. After several decisions everything was maintained. Captains handled everything, conducted house activities, supported the school whichever way possible. Overall, everything with the batch was good.

About our Chief Captain (pres.)

Khushi Kumari D/o Mr. Shatrughan, was selected for this position after tough examination and physical tests. She was a brilliant student and chief captain of her batch. During her service, she had to look after every captain and their activities.
